RECOVERY DECISION SCIENCE

Maximize your return by finding the right assets

PAYMETRIX AI

ASSET IDENTIFICATION

powered by **uniFund**

WHAT IS IT?

Paymetrix AI is a proprietary asset searching model with the unique ability to identify previously undiscovered assets such as homes, bank accounts, and jobs.

Uncover & deliver previously undiscovered consumer assets 

HOW DOES IT WORK?

The Paymetrix AI model leverages numerous features to find and verify consumer assets, leading to liquidation rates two to three times higher than competitors.

- ✓ Sophisticated asset waterfall
- ✓ Recursive searching
- ✓ Multi-step verification
- ✓ Exclusive partnerships and proprietary databases

Industry-Leading Asset Location

Balances Maximum Recovery with Timing of Cash Flows

Finds and Delivers Data Others Have Been Unable to Locate

Guarantees Accuracy of Data Across Many Data Sources

Transforms Data Into Actionable Information

Leads to Meaningful Collection Results and Higher Yield

Provide a pathway to better decisions & quicker profits

WHAT DOES IT DO?

Paymetrix AI helps you uncover difficult-to-find assets for pre-litigation or post-judgment collection. Through the model, Paymetrix AI takes the guesswork out of identifying payers.

- ✓ Industry leading asset location process
- ✓ Balances maximum recovery with timing of cash flows

Find and verify assets leading to higher liquidation rates

DIFFERENTIATORS:

Numerous differentiators aid Paymetrix AI in being the industry leader in assisting your organization to locate:

- ✓ Homes
- ✓ Bank accounts
- ✓ Jobs
