## WHY DO WE DO IT?

We grow revenue, maximize returns and provide automated, simple solutions to manage your customers. To illustrate this, we utilized a sample of 50,000 accounts that had been previously litigated and compared the outcomes to a random sample where litigating 50% of the total accounts should yield 50% of the total profit. The results showed significant lift for all of our analytics products.

## MAXIMIZE RETURNS

*by pinpointing the right accounts*
